Marten _____ Cougar _____ Bear _____ Moose _____ Feral Pig _____

Coyote hunting was legal during firearm season this year. How many coyotes were taken by your camp this firearm season? _____

How does your camp rate this year's deer season?

Excellent Good Fair Poor

****Record deer observations on reverse side and following pages of this form****

- When recording deer observations, use **B** for bucks, **D** for does, **F** for fawns, and **U** for unidentified deer.
- If you do not see any deer on a particular day, be sure to write **0** on the form. Leave the space blank only if you did not hunt that day.
- Try your best to differentiate between does and fawns when recording your sightings. Otherwise, fawn-to-doe and buck-to-doe ratios will not be accurate.
- If you observe the same individual deer more than once on any given day, and you are sure it is the same deer, count it only once that day.
- The questions on the front of the form are for the entire camp to answer together. Talk over the questions and make responses which represent the camp's opinion.
- Remember to have each hunter fill in the number of bucks and antlerless deer they killed in the last 2 columns on the back of this form.

The space below has been reserved for your comments

.....

.....

.....

.....

Record the number and type of deer observed each day. Use B for bucks, D for does, F for fawns, and U for unidentified deer.
 Write "0" for days hunted with no deer observed. Leave square blank for days not hunted.

Important!

	Sept.	OCTOBER															How many deer did you kill?
